# Recognition system

Third-party verification is required for each recognition

CR created the regional standard INTE B5

It will be used by Panama for its new program and we will collaborate with Ecuador and Guatemala to also support the possible use of INTE B5.

CR is project leader jointly with UK of the ISO WG 15 to elaborate ISO 14068, the new ISO standard for Carbon Neutrality

**INTE B5:2016**

**Requirements to demonstrate  
Carbon Neutrality.**

Correspondence: This standard does not correspond to any international standard as it did not exist at the time of its development.

Oficial del Gobierno de Costa Rica

**857.056 tCO<sub>2</sub>e**

Reported in 2015,  
representing 8% of the  
national inventory

**+1.700.000 tCO<sub>2</sub>e**

Reported in 2018

**+\$13 million**

Invested in reduction actions  
(161 organisations 2017- 2019)

**+\$43 million**

Estimated  
social benefit  
of carbon

**+590.000 tCO<sub>2</sub>e**

Have been reduced and  
compensated

**+449.000 tCO<sub>2</sub>e**

Have been removed  
(own forests)

+\$1,7 million invested  
in FONAFIFO

**PPCNC 38%**

of the national territory  
and 40% of the country's population

**Aprox. 6 492 309**

**tCO<sub>2</sub>e**

emissions reported by  
communities

**+10 000**

people trained directly in  
the PPCN
